

Kindergarten Addition Lesson Plan

Subject/Course:	Math		
Topic:	Addition		
Lesson Title:	Adding using objects/images.		
Grade Level:	Kindergarten	Lesson Duration:	30 Minutes

Lesson Objectives

After completing the lesson the students will be able to:

-Create and solve addition simple problems using objects and images.

Summary of Tasks/Actions

Do introductory salutations

Have students be in groups

Give each group blocks with two different colors

Instruct students to count the blocks for each color and place them separately.

Let them write the number(s) for each color of blocks on a piece of paper.

Ask the students to add the two numbers by counting the total number of blocks. Let each group share the answers and explain how they got them.

Guide the students appropriately on how to use objects/images for addition.

Materials/Equipment

Paper

Pencil

Blocks with two different colors

Related Worksheet: Pictorial Addition

Take Home Tasks

Assign individual students addition pictorial worksheets. Review the worksheet at the start of the next lesson.
